

PRODUCT INFORMATION

SUPER-BOND

Adhesion Promoter for Asphalt, finds use in a wide range of asphalt mixture and spray applications. It is a amine based product used in low dosages & hence saves cost. SUPER-BOND anti stripping agent for roads maintains performance after storage in hot bitumen.

S. No.	Parameter	SUPER-BOND
1	Appearance	Dark Brownish Viscous Liquid
2	Odor	Agreeable
3	Specific Gravity @ 27° C	0.95
4	Water content percent moisture	0.6%
5	Pour Point	5°C
6	Flash Point	187°C
7	Thermal Stability	Stable
8	Solubility in diesel oil	Completely Soluble
9	Stripping value with 0.6% SUPER-BOND	No Stripping

Important Notes:-

1. Packing : 20 kg. Plastic Can / 180 kg. M.S. Drums / IBC).
2. Please follow mixing instructions carefully and completely.
3. Store in a cool dry place, between 10°C to 45°C away from direct sunlight or heat.
4. Please consult MSDS for any further information.
